

Elite Equine

JOINT-FLEX LIQUID

JOINT-FLEX LIQUID: A Liquid complementary feed supplement for oral use via top dress or feed. Scientifically formulated Joint supplement in a Liquid form using the latest known and tested ingredients including MSM, Glucosamine and Chondroitin joint maintenance nutrients for all ages and types of Horses and ponies, for sound mobility and joint support. Wear & Tear of joints is inevitable in hard working animals and the ageing process will eventually lead to degeneration of joints and cartilage. A scientific approach to help maintain supple and flexible joints using the best nano-technology and science is critical for maintenance of maximum mobility. Joints start to wear and tear very early in the life of a performance animal and maintenance should start before any clinical signs

- Highly Bioavailable nono-technological joint support ingredients
