

SHOOTER SPRAY

Parasiticide of external use for dogs and cats.

Formula:

Fipronil 0.25g.
Excipientes q.s.ad. 100 mL

Indications:

Parasiticide of external use for dogs and cats.

Target species:

Canine and Feline.

Route of administration:

External application on the skin and fur of the animal.

Dosage:

3 to 6 ml of solution corresponding to 5 to 10 beats per kg liveweight, equivalent to 7.5 to 15 mg / kg of body weight.

Effective against: fleas with an average period activity of two months (1 to 3 months); and ticks for 1 month (between 3 and 5 weeks).

Precautions:

If the product is applied to females with calves or to them, avoid contact between female and calve until they are completely dry to avoid the product ingestion.
